

TADS
Educate®

Portfolio Roadmap

Spring 2025

Student Information System

Product Vision: Provide TADS Customers with an advanced student information system, robust communication functionality, and integrations for seamless operations within their school(s).

Features/ Highlights	Customer Value	Spring	Summer	Fall	Winter
Improve user experience for schools and families					
UI Modernization – Family Portal	Improve family user experience by making the interface more intuitive, visually appealing, and easier to navigate.				
Selected Feature Upgrades	Enhance user experience with targeted improvements and new capabilities for evolving user needs.				
Enable seamless integration with other products					
One-Way Integration with Renaissance Star	Sends data from Educate to integrate with Renaissance Star assessments.				
SSO with Google	Enables seamless, quick and secure login for users with google accounts.				
Educate to Extended Care One-Way Integration	Sends student roster data to accommodate care for children beyond regular school hours.				
TADS & Educate Integration Enhancements	improves data accuracy and synchronization, ensuring seamless information flow between systems.				
Enhance user satisfaction for both schools and families					
Grade and Report Card Enhancements	Streamlines the grading process for Teachers and Admin and improve the accuracy and clarity of report cards for students and families.				
Infrastructure Updates	Enhances system performance, reduces long-term costs, and boosts development efficiency.				

needs of schools and families.
