CampusPay – New Repeating Block Feature in Forms

- ◄ Easily collect multiple entries in one form (e.g., students, lunch orders, registrations) using the new "Repeating Block" option in form design to improve the form-building experience for school administrators and families.

March 4, 2025

CampusPay – New Repeating Block Feature in Forms

- ◄ UI improvements for smoother navigation

- ◄ Important security updates for PCI compliance

- ◄ Enhanced Google Firebase analytics for better insights

- ◄ Bug fix: resolved grey screen issue affecting some users

January 27, 2025

TuitionPay – New Payment Portal Experience

We've redesigned the TuitionPay portal for a cleaner, more responsive experience:

- ◄ Mobile-friendly and faster navigation

- ◄ Customizable school branding and ability to add your school's logo

- ◄ Better visibility for admins on customized content

January 16, 2025

TuitionPay – Smarter Payment Status Tracking

◄ Scheduled payments now reflect the overall plan status ("Suspended" or "Failed"), giving admins and payers clearer and more accurate status updates.

CampusPay – Strengthened Security for PCI Compliance

◄ SQL injection vulnerabilities addressed; backend configuration updated for enhanced system protection.

MySchoolWallet – Backend Security Upgrades

◄ HTTPS enforced via HSTS headers

◄ TLS 1.2 enabled

◄ Security upgrades applied to Admin and Donations modules

January 13, 2025

MySchoolWallet App v3.0 – Major App Upgrade

◄ Upgraded to V2 APIs and improved backend for faster, more secure performance

◄ Upgrade notifications for users on old versions

◄ Better reliability across Android and iOS
