## Product Release Notes

May 28, 2025

MN v10.9.0

## Admissions Confirmation Email Update

- ✦ Admissions Confirmation Email sent to families upon completion of an Admission Application will now distinguish between “Required” and “Informational/Optional” supplemental document requirements.

## TADS ID in Charge Reconciliation Report

- ✦ Users will now see a TADS Suite ID column in the Charge Reconciliation Report, making it easier to identify students and manipulate the report to include data from other TADS modules or Educate.

## Updated "View Reqs" in Documents Tabs

- ✦ "View Reqs" links on the Admissions and Enrollment Documents tabs have been updated to properly link to the individual students' document requirement pages on their Admissions Applications or Enrollment Registrations

## Updated Filter in Mass Update Enrollment Statuses

- ✦ Updated the “Student Groups” filter on the Mass Update Enrollment Statuses page for both TADS Employees and School Administrator users to prevent over-filtering the student list.

## Improved Error Handling for NOC File Upload and Processing

- ✦ Now during an NOC file upload, if any individual row fails uploading, it will notify the user of that row error but it will process the rest of the sheet normally, rather than failing the entire process.

## 2026-27 School Year Configuration Now open

- ✦ Opened the 2026-27 school year for configuration in TADS Admissions, Enrollment, Tuition Management, and Billing. TADS Financial Aid is not covered by this change.

## Updated 2024 VNF Requirement for TADS Financial Aid
